

Digital Tesla Meter

Model

KCS-601B

Function

- Measure the surface magnetic field intensity value of the product.

Peculiarity

- ◆ High precision testing; 4 digital display, Positive and negative display.
- ◆ The probe adopts an imported Hall chip which has been calibrated by NMI.
- ◆ Manual zeroing.
- ◆ Multiple range options.
- ◆ Can be set the high and low limit to tell if the result is qualified.
- ◆ Digital hold function.

Technical parameter

Model	KCS-601R	Resolution	0.1mT/1mT
Power	AC.220V 50Hz	Operating temperature	-5°C~40°C
Warm-up time	2min	Relative humidity	0%~70% (indoors)
Measuring range	0~999.9mT~2T	Dimensions	W D H 250x235x110
Error	±1%	Weight	About 3 KG
